

***PERSONALIZED LAWN CARE***

P.O. Box 293

Scarsdale, NY 10583

T: 914-954-3141

E: foxmeadowlandscaping@outlook.com

Founded in 2017, Fox Meadow Landscaping (“FML”) is a new landscaping company guided by the famous principle that the client is always right. We view our relationship with our clients as highly personal, and one that requires open, easy communication. We care for your landscaping as if it were our own property. But more than that, we view your landscaping as an extension of your home and living space and something that you should be exceptionally proud of – something that we want to be proud of as well.

FML is owned by Francisco Calderon, who has over 15+ years in the landscape business and is well versed in what is needed to ensure top notch service and best-in-class landscaping. We are singularly focused on ensuring that your landscaping needs are met with excellent maintenance and plant care. From installation to maintenance, Fox Meadow Landscaping is your landscaping partner.

Our key differentiating aspects include:

As owner/operator, Francisco is in the field and at client’s properties every week for their service appointment, ensuring an excellent quality of service

Clients have the same weekly arrival time on the specified day of service (unless otherwise communicated due to inclement weather)

A highly responsive communication system, with email and photo updates for landscaping progress/suggestions/improvements to achieve excellent client satisfaction and timely service

A convenient billing system, with emailed invoices and multiple payment methodologies for ease of payment

Services we offer include:

**Spring Clean Up / Maintenance:**

- + Repair dead lawn patches with seed
- + Fertilize lawn and treat with a pre-emergent herbicide
- + Revive weak lawns by dethatching and aerating
- + Remove winter trunk protection and old mulch and re-mulch at the base of trees and shrubs
- + Prune, treat and clean up dead, broken, or diseased shrubs, branches and flowers
- + Rake, fertilize, and groom groundcovers

**Summer Maintenance:**

- + Regular mowing with alternating directions to avoid creating strips or ruts (and with clippings removed)
- + Fertilize lawn and treat with a broadleaf weed control, grub control and fungicide
- + Weed and mulch as needed in beds and around shrubs and trees
- + Regularly check for insect or disease damage and recommend appropriate applications
- + Trim hedges after the first new growth flush
- + Deadhead faded flowers and prune spring-blooming shrubs

**Fall/Winter Maintenance:**

- + Blow and rake leaves
- + Trim/cut back certain plant species for maximum growth the following season
- + Wrap shrubs/bushes that may get exposed to heavy snow and salt
- + Winterize lawn with appropriate fertilizer and lime (as needed)
- + Aerate and over-seed lawn (as needed)
- + Gutter cleaning/leaf removal
- + Snow blowing and plowing
